TRUST THE CHAIN TO DELIVER YOUR TRACK SYSTEM

As the largest company dedicated to sport surfaces, Sport Group has the only fully integrated supply chain in the track industry. This means that Rekortan tracks have unprecedented levels of quality control.

We control all aspects of our product from the laboratory to the quality and harvesting approach of the raw materials, the manufacturing and installation. Sport Group companies AstroTurf and Polytan are world leaders in track installation and all of our agents have been pre-qualified and attend regular trainings and technical sessions to ensure they deliver the same high-quality workmanship and warranties as dealing direct.

STRENGTH IN NUMBERS

- ▶ **20+** network of highly qualified installation partners

1999 - 2020

OUR EXPERIENCE IS GOLDEN

Designed for the modern athlete, Rekortan's renowned track systems are a diverse, world-class series of polyurethane running tracks that are unmatched in quality and performance. The Rekortan debut in 1969 revolutionized the track world with quality and innovation, forever crowning our systems as "the fast tracks". Rekortan was first installed at the Olympic Stadium, Berlin in 1969 and was later used for the 1972 Munich Olympic Games, where 11 world records and 20 Olympic records were set. Since then Rekortan has gained the reputation as having the perfect balance, giving speed to sprinters and energy return to distance runners. Rekortan's history is filled with golden times including the 1984 Olympic Games at the iconic Los Angeles Memorial Coliseum, where Carl Lewis raced and leapt to 4 x glittering golds.

A RECORD-BREAKING NAME

The name Rekortan is derived from two words. Rekort, which means 'record' in German, combined with 'tan', from the name 'Tartan'. 'Tartan' is the name of the first synthetic track ever used at the 1968 Olympics in Mexico City and is a Sport Group brand. Combined, these two words form Rekortan, a name and system which since its debut in 1969 has been committed to quality and record-breaking speed.
