POWERED BY

Laykold®
MASTERS

The **Laykold®** family of systems are acrylic sports surfaces that can be customized to achieve the desired performance, playability and appearance, making it an incredibly cost-effective way to breathe new life into asphalt or concrete surfaces. Low maintenance and resurfacing costs can extend a court's playing life or transform it completely.

Laykold® is the official surface of the Miami Open and has been since 1984. It is a popular choice for community-funded facilities as they find new ways to increase utilization and physical activity. **Laykold®** is used in premier tennis facilities across the world and is also widely used for pickleball, basketball, soccer, game courts and in-line skating.

Laykold® is manufactured in our ISO9001 and 14001 certified factory in Harmony PA. APT Corp is a global leader in the development and manufacture of innovative, high performance and environmentally friendly sports and recreational surfacing systems. The complete range includes synthetic grass for every application as well as polyurethane-based surfaces for running tracks, indoor gymnasium flooring and children's playgrounds.
