

LEED Credits Available for **Rekortan**[®]

Advanced Polymer Technology is dedicated to supplying its customers with quality products that not only possess exceptional physical properties, but also contribute to a “greener” environment.

The following products could help in contributing towards gaining LEED points and certification:

Regional Material: 1-2 points

APT manufactures its products in Harmony, Pennsylvania. If your project site is within 500 miles from this location then APT products can contribute towards LEED points.

Recycled Content: 1-2 points

SRB rubber provided by Advanced Polymer Technology is made from recycled material.

Pre-made rubber mats provided by Advanced Polymer Technology are composed of recycled material.

Rapidly Renewable Materials: 1 point

Qualipur 4400 ~ 49.3%

Qualipur 5052 ~ 76%

Qualipur 5050 ~ 22.7%

Qualipur 5050 SA ~ 20.65%

Low Emitting Materials: 1 point

Qualipur 1030 VOC ~ 92 g/L

Qualipur 1250 VOC ~ 97 g/L

Qualipur 4400 VOC ~ 1.7 g/L

Qualipur 5052 VOC ~ 0.8 g/L

Qualipur 5050 VOC ~ 1.4 g/L

Qualipur 5050 SA VOC ~ 1.0 g/L

Qualipur 6200 VOC ~ 2.3 g/L

Solar Reflective Index (SRI): 1 point

Earth Yellow - 31

Terra Rojo - 31

Rainbow Blue - 32

Red - 35

Purple - 47

Orange - 56
